

KLEINE MÜNSTERLÄNDER GROUP NORTH AMERICA

Procedure for Acquiring Mating Certificate

1. Stud dog owner records dates of successful breeding indicated by ties.
2. Stud dog owner confirms with Breed Warden that Bitch has been bred within 5 days of completion of breeding.
3. Stud dog owner sends GNA Treasurer mating certificate fee (\$46.50)
4. Breed Warden notifies Administrator Jacqueline Mette that mating has taken place.
5. Mette sends Stud dog owner Mating Certificate.
6. Stud owner fills out certificate (include all mating dates), signs, and sends to Breeder (bitch owner.)
7. Breeder includes mating certificate with litter registration and other required documents within three weeks after litter is born. This is sent registered mail because it will include bitch's original pedigree.

Please note: If a breeding does not produce a pregnancy the mating certificate may be reused at a later date with no additional fee.
